# Join the Italianglot Community on Discord

What's Discord? It's a website/app (for phone and desktop) where you can chat with other Italianglot members on different topics. There's a "channel" for each topic. All members can write in these channels and share their thoughts, stories, links, images, memes, etc.
Members from the *Active* and *Advanced Learner* levels can also join special channels where they can hang out with other members over voice and/or video.
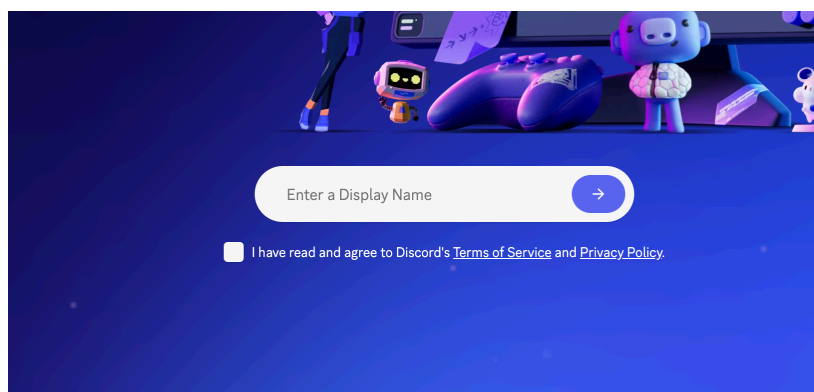

👉 Here's a Beginner's guide to Discord

Let's see how to join the Italianglot community on Discord. First, you'll need to create a Discord account.

- Go to https://discord.com/ on your computer or Download the Discord App on your phone (or desktop).
- On your computer click on "Open Discord in your Browser" (in the phone app click on "Register").

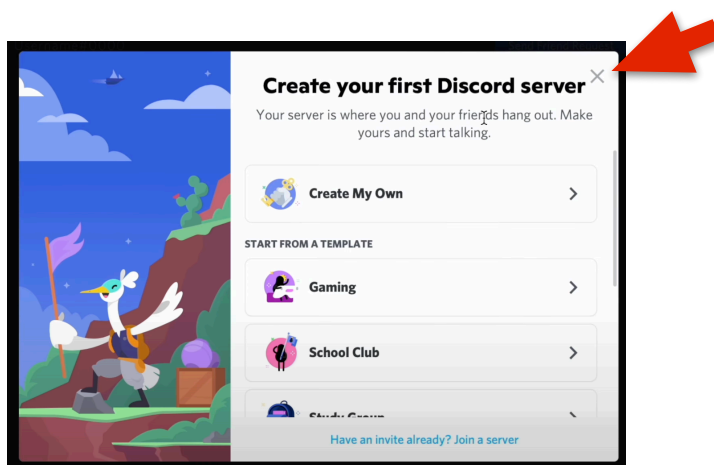

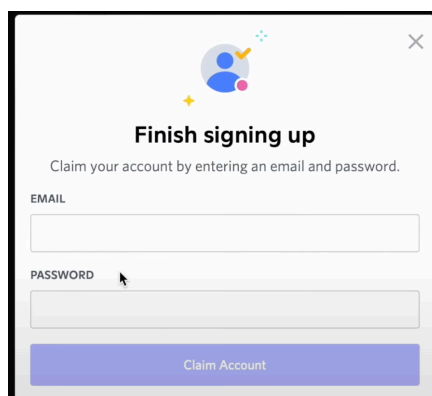

- and choose a unique Display name
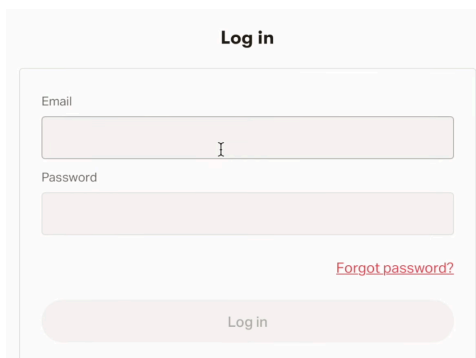

- Enter your birthday

- and just ignore and close the next window by clicking on the X at the top right corner

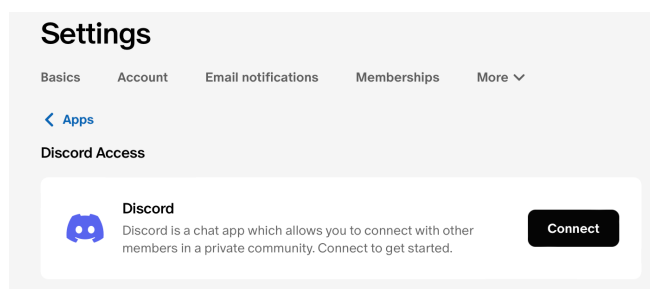

- Complete the registration process by entering your email address and by choosing a password. You will receive an email. Click on the link to verify your email address. It's important you do it or you won't be able to join the Italianglot community on Discord.
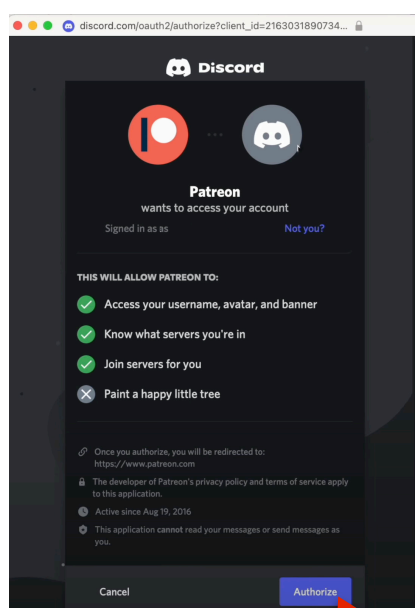

- Now go to the **Patreon website** and log in with your email address and password.

- Now we need to <u>connect Patreon to Discord</u>. To do that click on **this link**. You'll see this page:

- Click on Connect. A pop up window will appear. If you're not logged into Discord, you will be asked to log in, otherwise you'll just need to click on "Authorize".

- You've successfully linked Discord to Patreon! You may need to refresh the page. A list of available servers will appear. Click on the "Join server" button next to the Italianglot Server.

- You're done! Now go to the Discord website or your Discord app and start chatting with the other Italianglot members.
- Remember that you can access voice and video channels only if you're an *Active* or an *Advanced Learner.*
